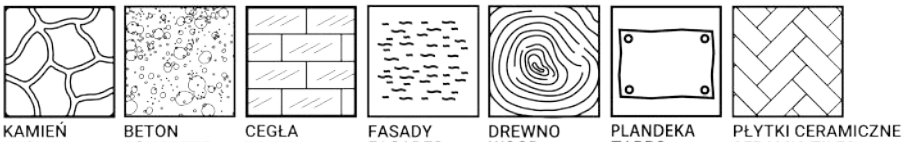
FASCLEANER 360° is a universal cleaner that easily removes dirt, black and green stains, and other atmospheric impurities from stone, building facades, and other stone surfaces. It is suitable for hard surfaces such as stone, concrete, ceramic, walls, building facades, wood, and tarpaulins. The cleaner can be used indoors (in well-ventilated areas) and outdoors. Coverage: 8–10 m² per liter, depending on the surface absorbency.



ADVANTAGES AND FEATURES
- Strong cleaning power for stone
- Removes black and green stains from walls
- Easy to use
- Simple to apply
- Suitable for use in well-ventilated indoor areas

INSTRUCTIONS FOR USE Shake the product well before use and test it on a small, less visible area. STONE AND OTHER HARD SURFACES: Apply the cleaner with a sprayer or roller to a dry surface. Allow it to act for 20 to 30 minutes, then scrub with a brush for better results and rinse with clean water. The best results appear when rinsed with warm water using a high-pressure washer. Repeat the process if necessary. The product can be diluted with up to 20% water, depending on the level of dirt. Note that dilution reduces effectiveness. DO NOT MIX THE PRODUCT WITH OTHER CLEANERS. After use, wash the equipment with clean water.

TECHNICAL DATA
FORM: Liquid
SCENT: Characteristic
SOLUBILITY IN WATER: Complete
COVERAGE: 8–10 m² per liter
DENSITY: 1.04 g/cm³
pH VALUE: 11.7
Laboratory test: 06/2021-ALS

STORAGE Store in a cool, dry, and well-ventilated place. Keep away from heat sources and direct sunlight. Protect from freezing.

DISPOSAL Do not dispose of with household waste. Return to the distributor or deliver to an authorized hazardous waste disposal company.

SHELF LIFE: 12 months after opening.

REQUIRED TOOLS Roller, brush, sprayer

HAZARD IDENTIFICATION: DANGER Warning Labels H290: May corrode metals. H314: Causes severe skin burns and eye damage. H335: May irritate the respiratory system. H400: Very toxic to aquatic life. **Precautionary Statements [PREVENTION]** P260: Do not breathe gas, vapors, or aerosol. P273: Avoid release into the environment. P280: Wear protective gloves, clothing, eye protection, and face protection. **[RESPONSE]** P303+P361+P353: IF ON SKIN (or hair): Immediately remove all contaminated clothing. Rinse skin with water or shower. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to remove. Continue rinsing. P310: Immediately call a POISON CENTER or doctor. P390: Absorb spillage to prevent material damage. **[STORAGE]** P403+P233: Store in a well-ventilated area. Keep container tightly closed. EUH031: Contact with acids releases toxic gas.

FIRST AID After inhalation: Move the person to fresh air. If breathing stops, apply artificial respiration. If dizziness, headache, nausea, or similar symptoms occur, seek medical advice. In case of unconsciousness, place the person in a recovery position and ensure airway remains open while transporting to a hospital. After skin contact: Remove all contaminated clothing and footwear. Rinse affected areas thoroughly with water and mild soap for at least 15–20 minutes. If any symptoms appear or persist, continue decontamination and seek medical advice. After eye contact: Gently separate eyelids with clean fingers and rinse each eye with a light stream of water for at least 15–20 minutes, alternating eyes quickly during the first 60 seconds. If symptoms appear or persist, continue rinsing and seek medical or ophthalmological advice. After ingestion: Do not induce vomiting. Rinse mouth with water and spit out. Place the person in a semi-upright position and keep calm. Seek medical advice immediately.
