GRAFFITI REMOVER UNIVERSAL is a universal product for removing graffiti and paint from smooth and porous surfaces such as metal, mineral, and other surfaces. Due to its neutral odor, it can be used on interior and exterior surfaces. Surface coverage 5-20 m²/l (depending on surface absorbency).

ADVANTAGES AND CHARACTERISTICS
High power for removing graffiti and paint from walls
Easy to use
Simple to apply
Can also be used in well-ventilated interiors

INSTRUCTIONS FOR USE Shake the product well before use and perform a test on a smaller surface and in a less visible area. SENSITIVE NON-POROUS SURFACES (metal and other smooth surfaces): Apply a layer with a sprayer, brush, or roller to a dry surface. Let the product act for 20-30 min. It is recommended to rub the product in with a brush, cloth, or sponge to enhance its action. Rinse the product with pressurized water (miniwash). POROUS SURFACES (stone): Apply the product to facades with a sprayer, brush, or roller on a dry surface. After 15 minutes, scrub thoroughly and rinse with pressurized water (miniwash). If the graffiti is not removed on the first attempt, the procedure can be repeated as many times as necessary to remove the graffiti, paint, or dirt. CAUTION! The product may damage plastic (PVC) surfaces. After use, wash tools with ordinary water. The product may only be applied if the ambient temperature is 5-30 °C.

TECHNICAL DATA
STATE: Liquid
COLOR: Red
ODOR: Present
SOLUBILITY IN WATER: Complete
SURFACE COVERAGE: 5 - 20 m²/l
DENSITY: 1.01 g/cm³
pH VALUE: 8.3

Laboratory testing 14/2021-AL

STORAGE Store in a cool, dry, and well-ventilated place. Store away from heat sources and direct sunlight. Protect from freezing.

DISPOSAL Product residues are considered special hazardous waste. Dispose of waste in accordance with national legislation.

SHELF LIFE: 12 months from opening.

REQUIRED TOOLS: Roller, brush, sprayer

WARNING STATEMENTS H319 Causes serious eye irritation. **PRECAUTIONARY STATEMENTS [PREVENTION]** P264 Wash exposed parts of the body thoroughly after use. P280 Wear protective gloves/protective clothing/eye protection/face protection. **[RESPONSE]** P305+P351+P338 IF IN EYES: rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: get medical advice/attention.

FIRST AID After inhalation: Move person to fresh air. In case of respiratory arrest, apply artificial respiration. If dizziness, headache, nausea, or similar symptoms occur, seek medical advice. In case of unconsciousness, transfer the person to the hospital in a lateral position while maintaining airway patency. After skin contact: Remove all contaminated clothing and footwear. Thoroughly rinse contact areas with water and mild soap for at least 15 minutes. If any symptoms appear and/or persist, continue decontamination and seek medical advice. After eye contact: With clean fingers, separate the eyelids and rinse each eye with a gentle stream of water for at least 15 minutes (during the first 60 seconds, alternately rinse each eye quickly). If any symptoms appear and/or persist, continue decontamination and seek medical advice or consult an ophthalmologist. After ingestion: Do not induce vomiting! Rinse mouth with water and spit out. Give the person 2-3 dL of water to drink. Place the person in a semi-recumbent position and keep calm. Seek medical advice.
